

September 22, 2025: On Elon Musk and Donald Trump being actual Nazis

Social media users likened the gesture to a Nazi salute (Image:)

Elon Musk was accused of performing a bizarre Nazi-style salute during a **Donald Trump** inauguration rally in **Washington DC**.

Yes, I have researched these matters for myself and I did this work under the watchful all-seeing eye of Musk's spy campaign and Donald Trump's campaign for President. All of their military power was racing around our home as I put together each one of these slides from the Nazi prosecution guide of the actual Nazi takeover of Germany. As I produced this work, I watched them use it, and recreate it, in America right before our very eyes.

We are living in a very serious and dangerous set of circumstances right now and we all must repel these terrible demons with every bit of wisdom and strength that we have.

These are some slides of how the Nazis used their influence to take over the church for their own purposes. Once again, the Nazi way is not simply destruction of others it is the capture of others to act as hosts for continuously growing their evil.

I am not being targeted because of my powerful legal practice. I am being targeted because of my powerful religious practice. The courts are tied up. God is free as always. This is why the Nazis persecute and takeover the church.

THE NAZI MASTER PLAN

ANNEX 4: THE PERSECUTION OF THE CHRISTIAN CHURCHES

Description

This study describes, with illustrative factual evidence, Nazi purposes, policies and methods of persecuting the Christian Churches in Germany and occupied Europe.

DRAFT FOR THE WAR CRIMES STAFF

6 July 1945

All of my communications are being monitored by their spying campaign and I am unable to contact anyone in a normal fashion because I am aware that all of my communications are being monitored.

I am a licensed attorney at law that is witnessing all of his communications and work being monitored by an unlawful force inside of the government. Obviously, I am serious reservations

c. Interruption of Official Communications within the Church Government. The effective operation of any large organization depends on the maintenance of free and confidential communication between officials. This right was guaranteed for the Catholic Church in Germany by Article IV of the Concordat, which reads "In its relations and correspondence with the bishops, clergy and other members of the Catholic Church in Germany, the Holy See enjoys full freedom. The same applies to the bishops and other diocesan

about taking on any new clients or performing an paid legal work under the circumstances. To do so would be a serious breach of the trust that my client's place in my protection of their privacy.

This also affects my ability to contact other people in the world as I am also very aware of the fact that people do not want to be spied on by the government. For me to extend communications to people, I am knowingly inviting their private communications to be seen by Donald and Elon's spying team.

This type of illegal spying campaign is being used on me because of my religious work. In fact,

officials in their dealings with the faithful in all matters belonging to their pastoral office." Violations of this right played an important part in the total Nazi scheme for the persecution of the Christian Churches. As early as 1935 the bishops were made to realize that their correspondence and telephone calls were subject to constant surveillance by the police.¹

The following cases might repay investigation.

1. Cases in Germany Proper.

CASE 2. In February, 1937 Dr. Zöllner, the Chairman of the Reich Church Committee, was prevented by the police from visiting nine Confessional Pastors of Lübeck who had been arrested by the secret police. This interference with his attempted conciliation led to the resignation of Zöllner and his committee on 14 February 1937.

THE PROBLEM OF PROOF. Evidence should be obtainable from serving Confessional leaders.

the religious work that I am doing is the primary reason that I am being spied upon - in my opinion. This is a battle between good and evil and the good of the world is being shut down before they have a chance to begin their work.

I am being hindered from my own ability to gather income of my own and our resources are being feasted upon by businesses all around us as we have tried to escape this awful reality. The Nazi plan is to suffocate our life from the outside while sucking the life out of us from the inside. Our family is experiencing this exact method of slowing being destroyed by an illegal gang of criminals that are all working on behalf of a threatening power.

b. The Imposition Of Financial Controls Upon The Operation Of Church Governments. The principal Christian Churches of Germany had long derived their main financial support from state collected church taxes. To maintain effective control over these organizations it was therefore sufficient to deprive them of all other sources of revenue, and to impose state restrictions upon the expenditure of state collected funds. The Sammlungsgesetz of 5 November 1934¹ which placed severe restrictions on the right of churches and other organizations to solicit contributions was an important hindrance to the financial independence of all churches.

We witnessed the Pope of the Catholic Church die on Easter Sunday, immediately after meeting with J.D. Vance, the Vice-President of the United States, in an 'unannounced meeting.'

A. Interference With The Central Institutions Of Church Government

The easiest way to achieve rapid results in the destruction of the Christian Churches was to paralyze their central institutions, and thus deprive them of the advantages of central leadership. This was accomplished either by the direct seizure and exploitation of those institutions by Nazi or pro-Nazi personnel, or by interference with the effective operation of those institutions which could not be thus subjected to seizure and exploitation.

Who surrounds J.D. Vance, the Vice President? Who protects him? The USA military.

On April 20, 2025, aka Easter Sunday, [Pope Francis](#) privately met with United States Vice President [JD Vance](#). The unannounced meeting

We have now witnessed the 'direct seizure' of institutions of all sorts. You can place your own analogies here. We are witnessing the exact same tactics that were used by Nazis to capture institutions in Germany being used to capture institutions here in the United States of America.

Donald Trump has also expressed how much it bothers him that he is being labeled a Nazi. He was especially sensitive to this label as he sat to discuss the assassination of Charlie Kirk.

Why Nazi comparisons triggered Trump after Charlie Kirk's assassination

The killing of one of his closest allies gives Trump a new platform to revisit old grievances: accusations of Nazism

We are living through a very serious breach of the trust of the American people. The fact that most of this remains hidden from public view does not excuse the fact that these 'forces' were very excited to watch as I worked on research into the Nazi takeover of Germany.

If Donald Trump and Elon Musk are concerned about being labeled 'Nazis' - perhaps it is because that label is too close to the truth.

Charlie Kirk's assassination is not random. History shows the pattern:

1. Label your opponents "evil". For example "Nazis" and "Fascists".
2. This implies normal rules don't apply to them
3. Excuse or celebrate the violence...
